Hent historik for receptanmodning

For at kunne danne et overblik over individuelle receptanmodninger, er der lavet en specifik service, som ud fra et id på en receptanmodning kan hente den fulde historik over denne anmodning.

Dette kan være nyttigt i forbindelse med overblik af om anmodningen fx er blevet viderestillet, og i så fald af hvem og hvorfra/hvortil.

Forespørgsel

I forespørgslen til servicen angives patienten som anmodningen er knyttet til, samt id'et på receptanmodningen.
