EffectuatePlannedVaccination

Table of Contents

EffectuatePlannedVaccination

Servicen muliggør effektuering af en planlagt vaccination. Konkret betyder det at der:

1. Oprettes en ny vaccination, med udgangspunkt i data fra den planlagte vaccination
2. At den planlagte vaccination markeres som effektueret, og dermed ikke længere fremgår af listenmed planlagte vaccinationer.

Servicen returnerer et element med oplysninger om den vaccination, der er oprettet som et resultat af requestet.
