Hent indhold af pakkegruppe

Denne service fungerer på samme premise som [hent pakkegruppe](#), og returnere også samme type data. Dog er denne service tiltænkt en mere bred gennemgang af pakkegruppen, da der fx også er mulighed for at hente DD-kort uden perioder på.

Request

I requesten angives en `PackingGroupIdentifier` dvs id for pakkegruppen, derudover kan der optionelt tilføjes en `PeriodDate` element og en `IncludeCardsWithoutPeriod` element.

`PeriodDate` benyttes til at FMK derved specifikt forsøger at finde DD-kort som har en aktiv periode hvor denne dag indgår. Dvs `PeriodDate` er mellem periodens start og slutdato (begge date inklusiv). **Sættes denne værdi ikke, benyttes dags dato som default.**

`IncludeCardsWithoutPeriod` elementet betyder at FMK også skal returnere kort som ikke har en periode på det angivne tidspunkt.

[GetDoseDispensingSummaryRequest.xml](#)

```
<GetPackingGroupContentsRequest>
  <PackingGroupIdentifier>1607592088167001697</PackingGroupIdentifie
r>
  <PeriodDate>2020-12-10+01:00</PeriodDate>
</GetPackingGroupContentsRequest>
```

Response

Som svar fra servicen får man samme type data som fra [hent pakkegruppe](#) servicen. Dvs en beskrivelse af pakkegruppen efterfulgte af en liste af personer som har kort knyttet til gruppen.
