Hent Patientdata

For at kunne hente historiske patientdata udvides GetPatientRegistrationResponse i E5 til at kunne returnere RemovedBy i en Registration.

Request

Kaldet til at hente patientdata er uændret fra E2.

[GetPatientRegistrationRequest.xml](#)

```
<GetPatientRegistrationRequest>
  <PersonIdentifier>2401010010</PersonIdentifier>
  <Identification>
    <Type>SetDoseDispensingOnHold</Type>
  </Identification>
</GetPatientRegistrationRequest>
```

Response

Hvis der er patientdata, som er overskrevet eller fjernet, vil RemovedBy elementet være sat.
